   [Strongly Agree]   Agree   Neutral   Disagree   Strongly Disagree   N/A (unable to rate)

Synthesis

1. Project Description - In the space provided, provide a description of the work you performed, including project goals and how it fit into the broader mission of the organization. Why it is useful, interesting, or important beyond the skills that you acquired while completing the project. In short, explain why a larger audience should care.

2. Connections

In the space provided, reflect upon how this experience helped to increase your understanding of the interdisciplinary connection between various natural science disciplines and between natural sciences and social sciences.

3. Training & Transferable Skills – Describe the skills you learned or further developed, how you were taught those skills, and how they can be transferred to future work? (e.g., GIS, specialized tools or lab equipment, etc.), and broad transferable skills learned (e.g., written communication, public speaking, problem solving, analytical thinking, etc.)

4. Learning Objectives
Please restate your learning objectives. Did you meet each of your learning objectives? If so, how? If not, why not? Did you learn something unexpected? What could have or should have gone differently?

5. Impact
How did this internship contribute to your academic progress and professional development?

Please include these sections if applicable.
- **References** –bibliography or works cited.
- **Figures, tables, and artwork** – You are encouraged to include any illustrative figure, tables, or artwork to describe your internship experience and reference them as needed throughout your report. If an item is not of your own creation, then it must be properly cited!

Submit the completed Self Evaluation Form directly to Canvas
If you have difficulty with uploading to Canvas, you may email the completed form to erin.lieuallen@oregonstate.edu.
